Dear Darlene;

RE: Calgary Foundation Grant 2008-1275

Please find attached RiverWatch follow-up materials to conclude the very successful Calgary Foundation Grant 2008-1275.

Invoice

Attached is the paid invoice for the RiverWatch use of the David Elton Outdoor Fund. The \$1500 grant was used to engage the services of Safety Management and Communications Consultant Jon Lovink. Jon is a former CBC news manager with on-the-ground experience in critical incident communications and now consults to the oil and gas industry. Jon conducted an excellent full-day workshop in Calgary for RiverWatch board, guides and management staff on November 6, 2008.

Emergency Response Plan

Building on the November 6<sup>th</sup> Safety Management and Communications Workshop, RiverWatch staff then went on to develop a comprehensive Emergency Response Plan which is now in use by RiverWatch Board of Directors, management and river guides. The ERP document is attached.

The Calgary Foundation and David Elton Outdoor Fund have been acknowledged inside the Emergency Response Plan document. Please accept my sincere thanks for this support. RiverWatch is now well-prepared to manage the health and safety of the 7000 students that use our program to research first-hand the environmental health of their river.

If there is any further information required to complete this grant, I would be please to hear from you.

Sincerely,

Cal Kullman  
Executive Director
